Fayette County Prosecuting Attorney, and to manage and account for all site investigation, remediation, oversight and monitoring, and enforcement costs and expenses incurred or to be incurred by or on behalf of Fayette County in connection with any such claim or matter would aid the expeditious prosecution and resolution of Fayette County's environmental and public health protection claims, and facilitate the administration of such **Settlement Proceeds** to support the County's on-going site investigative, remedial, and legal enforcement actions on or in connection with any case or matters referred to the EPHPU by the Fayette County Commission, or on any Environmental or Public Health Protection claim that may properly be asserted by the Fayette County Prosecuting Attorney pursuant to applicable federal, state or county law;

II. CONCLUSIONS OF LAW:

The Fayette County Commission, following consultation with the Fayette County Prosecuting Attorney, makes the following Conclusions of Law:

- a. West Virginia Code § 7-1-9 authorizes a West Virginia county commission, in addition to all other powers and duties conferred upon them by law, "to create and establish, by proper order, special funds to be used for any purpose which such [county commission] now or hereafter may by the provisions of chapter seven [§§ 7-1-1 et seq.] or article eleven [§§ 8-11-1 et seq.], chapter eight of [the West Virginia] Code be authorized to accomplish.
- b. A provision of Chapter seven of the West Virginia Code, to wit, West Virginia Code §-7-1-3kk, authorizes a county commission, in addition to all other power and duties conveyed upon it by law, "to enact ordinances, issue orders and take other appropriate and necessary actions for the elimination of hazards to public health and safety and to abate or cause to be abated anything which the commission determines to be a public nuisance."
- c. A separate provision of Chapter Seven of the West Virginia Code, to wit, § 7-1-3ff, grants plenary authority to a West Virginia county commission "to adopt ordinances regulating the removal and clean-up of any accumulation of refuse or debris, overgrown vegetation or toxic spillage or toxic seepage located on private lands which is determined to be unsafe, unsanitary, dangerous or detrimental to the public safety or welfare, whether the result of natural or manmade force or effect."
- e. The civil claims and choses-in-action referred by the Fayette County Commission for investigation and possible prosecution by the Fayette County Prosecuting Attorney by this

COUNTY COMMISSION OF FAYETTE COUNTY, WEST VIRGINIA
ORDER No. 2018-_____

Establishment of "Fayette County Environmental and Public Health Protection Special Settlement Fund"

Commission's Resolution 2017- _____, adopted October 3, 2017, include authority to investigate, assert and, if appropriate, settle liability to Fayette County on claims of Fayette County: (i) pursuant to West Virginia Code §§ 7-1-3ff and 3kk; (ii) for recovery of Costs of Response to Hazardous Substances released into the Environment incurred and to be incurred by Fayette County pursuant to Section 107(a) of the federal Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended, 42 U.S.C. § 9601-9675 (hereinafter: CERCLA or "federal Superfund Act"); and (iii) for any necessary relief required for the timely and competent abatement of any condition presenting an imminent and substantial endangerment to the public health, safety, welfare, or the environment within Fayette County pursuant to applicable federal, state or county law.

- f. The creation of a special settlement fund of Fayette County to receive, manage, invest and disburse **Settlement Proceeds** received by or on behalf of Fayette County on matters and claims referred for investigation and possible prosecution by the Fayette County Prosecuting Attorney pursuant to this Commission's Resolution 2017- _____, adopted October 3, 2017, is a purpose that the Fayette County Commission is "authorized to accomplish by the provisions of Chapter seven of the West Virginia Code" within the meaning of that phrase as set forth in West Virginia Code § 7-1-9;
- g. In exercise of its congressionally-granted rulemaking authority, the U.S. Internal Revenue Service has, in compliance with the federal Administrative Procedures Act, lawfully promulgated federal regulations codified at 26 C.F.R. § 1.468B-1 that expressly create and define a "Qualified Settlement Fund" for purposes of federal law. Those regulations provide that a settlement fund is a "Qualified Settlement Fund" if:
 - (a) it is established pursuant to an order of any state, or political subdivision thereof, and is subject to the continuing jurisdiction of that governmental authority;
 - (b) it is established to resolve or satisfy one or more contested or uncontested claims that have resulted or may result from an event (or related series of events) that has occurred and that has given rise to at least one claim asserting liability: (i) under the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (hereinafter referred to as CERCLA), as amended, 42 U.S.C. 9601 et seq.; or (ii) arising out of a tort, breach of contract, or violation of law (hereinafter: "**Qualified Claims**"); and
 - (c) its assets are otherwise segregated from other assets of the Transferor (and related persons).
- h. The provisions of federal income tax law provide the following significant income tax benefits to Fayette County and to "transferors" (*i.e.*, parties settling their liability to Fayette County) of money or property into a Fayette County "Qualified Settlement Fund", which beneficial treatments are not otherwise available under federal tax laws:
 - (a) 26 C.F.R. § 1.468B-2(b)(1) provides that, in general, amounts transferred to the qualified settlement fund by, or on behalf of, a transferor to resolve or satisfy a liability for which the fund is established are **excluded** from gross income of the qualified settlement fund;
 - (b) 26 C.F.R. § 1.468B-3(c) provides that, in general, "economic performance," which is a prerequisite of federal income tax law that must occur before a transferor may deduct the value of its transfer into a qualified settlement fund, occurs with respect to the

transferor's liability on a **Qualified Claim** to the extent the transferor makes a transfer to a qualified settlement fund to resolve or satisfy that liability. (Note: In the absence of this provision, a transferor settling some or all of its liability to Fayette County on a Qualified Claim by Fayette County would **not** be able to deduct the amount of that transfer until the transferred funds or property were actually applied or expended in the course of the resulting site investigation or long-term site remedial actions, which could result in the transfer not being deductible to transferor for an extended period of time, possible years or decades.);

- (c) 26 C.F.R. § 1.468B-2(b)(2) provides that, in general, a Qualified Settlement Fund is allowed to deduct from its gross income (*i.e.*, the Fund's earnings) the full amount of its administrative costs and other incidental expenses incurred in connection with the operation of the qualified settlement fund to the same extent those expense would be deductible pursuant to chapter 1 of the Internal Revenue Code in determining the taxable income of a corporation. Such administrative costs and other incidental expenses include state and local taxes (if any), legal, accounting, and actuarial fees relating to the operation of the Qualified Settlement Fund.
